JUNIOR JAVA DEVELOPER

PROFILE

I am aiming for a Java Developer position within a prestigious organisation where I can practice and add to my skills as a software developer whilst performing challenging tasks efficiently in a friendly but result driven working environment.

EXPERIENCE

JUNIOR JAVA DEVELOPER

At present date I am attending the Java Developer course held by Software Development Academy. Course amounting to roughly 400 hours focusing on developing skills like problem solving, source code writing, software design patterns, software craftsmanship, software testing, database interaction, scrum methodology and on our familiarisation with technologies like GitHub, IntelliJ IDEA, terminal usage, Slack, Sublime Text, Vim whilst focusing on Java software development including also Spring Framework, HTML, CSS, SQL, MongoDB and JavaScript.

You can follow my evolution on GitHub.

SKILLS

-Java 8
-Html, Css , JavaScript
-TDD
-Design Patterns
-SQL / NoSQL
-JDBC,Hibernate,Mongo DB
-Html, Css , JavaScript
-JSP- Servlets
